### The Irrigation and Constitutional Committees ADJOURN WITHOUT ACTION.

State Engineer Hall's Irrigation Scheme Giving the State Control of the Water.

Special to the Herald by the Associated Press.

SACRAMENTO, July 23.—A meeting of the Assembly Irrigation Committee was held this morning in the Supreme Court room for the purpose of hearing what the parties to the irrigation controversy have to say. Many members of the Legislature and irrigators were present. As the meeting was held in the Supreme Court room, the whole value of the State Engineer's scheme was discussed. The committee was organized by Judge Dyer and F. Church, of Fresno; Manuel Fowler, of Tulare; Senator Raddy, of Mono and Johnson of San Bernardino; and A. B. Marks, of Fresno. The latter said he had been sent to this city to represent the people of that county. No one appeared on behalf of the riparianists, a resolution of Monday, of Seneca, a resolution was adopted inviting the public to be present at the meeting this evening. The Senate Irrigation Committee will not meet until Monday. Taylor, the chairman, is a riparianist, and the committee stands seven irrigators to four riparianists.

### The Cutting Trouble in Mexico.

MEXICAN TROOPS MASSING.

The Senate Refuses to Investigate Payne—J. De Barth Shorb Very Ill.

Special to the Herald by the Associated Press.

EL PASO, TEX., July 23.—In spite of the repeated assurances given by the Mexican officials during the day that no more troops should be sent to Paso del Norte, it is learned late to-night from authentic sources that a train loaded with troops is on its way north from Chihuahua and will be in Paso del Norte before daylight. They are supposed to be Chihuahua State and not Mexican Federal troops.

Paso del Norte is still full of Mexican soldiers, although the heavy reinforcements announced on the way from Chihuahua have not yet arrived. The State Department at Washington today advised of all military movements the Mexicans may undertake. Medina, who was arrested by the Mexican police on the morning of the 22nd, is still in custody. Cutting is very much disappointed that Medina was not put in the same cell with him, and is waiting to bribe the jailer to do so, but without avail, as his functionary apprehended Medina is in the hands of the Mexican authorities. The Mexicans are very much put out about the bad break Medina made in escaping. It was estimated that he had been in the hands of the Mexican authorities for some time. The G. A. **The People's Store**

Is sure of one thing, that it has sold goods cheaper than any store in town. The increase and present size of our business shows that. What we have sold goods at heretofore is no comparison to what we are selling now. Our goods are all bargains compared to what we sold them at before. We have cut loose from all jobbing merchants in the country and save their ten, fifteen and twenty-five per cent. that all other dealers have to pay because they haven't the cash and don't use the quantity.

We buy our goods at the mills or of the commission merchant, who sells the products and the forms are 2 per cent. off for cash in ten days from the date of purchase. It takes twenty days for the goods to get here, so they are paid for ten days before we get them. How many houses in Los Angeles do this? We discount all our bills, and that alone gives us a standing in the market that enables us to buy cheaper than our competitors.

**NOTE THE DIFFERENCE IN PRICES:**

We sell to-day a fancy towel 30x40 inches, called a basket pattern, at 15c; that we sold before at 25c. A Russian bathing towel at 10c; that we sold stacks of at 20c and ran them out in cases on our center tables at 15c. Fruit Doilies, all linen, at 25c a dozen that we sold on center tables as an immense bargain at 45c. White Damask Table Linens, 50x100, border, beautiful designs, 55c a dozen, sold before for \$1.50. Our entire line of 3c Lawns, not the mosquito netting, will be sold at 5c.

Our entire line of half wool, solid color, lace bunting 5c a yard that we have sold as high as 25c. 40x60 sheeting, large patterns, goods that sold for 37c a yard, selling to-day at 15c. Ladies' Gause Vest in high neck, long or short sleeves, are selling to-day at 25c, formerly sold at 45c. Solid Damask Table Linens, 50x100, border, beautiful designs, 55c a dozen, sold before for \$1.50. Our entire line of 3c Lawns, not the mosquito netting, will be sold at 5c.

We offer special bargains in Table Linens, in Embroideries, in Linen Laces, Oriental Laces, etc., etc. These goods have been marked out for sale at a low price. We are working off \$50,000 worth of stock that we have (not in our imagination) but in our stores.

**How You See It and How You Know It.**

The attitude of some of the newspaper editors of California on the question of irrigators' rights is something worthy of note. There would be a large element of humor in it if the issue were not so grave. Conspicuous for its jump Jim Crow versatility of course stands the *Chronicle*. Everyone knows that the *Chronicle* is a volatile and versatile journal—not so volatile, however, as the wayfarer might think. Its attitude to-morrow can by no means be presumed from its attitude to-day, or yesterday, or in preceding days. It is a law unto itself, and it has been embodied in the old catch:

It jumps about and does just so, And every time it turns about it jumps Jim Crow.

The *Chronicle* for months past has been laboriously training with Mr. J. de Barth Shorb, whose aspiration was the evolution of a scheme of irrigators' rights through legislation.

As a matter of fact our townsmen succeeded in getting his ideas far more fully developed in the pages of the *Chronicle* than in those of the Los Angeles Herald, although naturally a Southern California journal largely sympathetic with any scheme which had for its object the formulation of an honest and beneficial plan of irrigators' rights.

But the Herald, after due deliberation, having put its hand to the plow, remained to the end. The *Chronicle*, all at once, has received new lights. Having gone over to the side of the riparianists, it still grotesquely mixes up a lot of sound talk with its twaddle, producing a logical edifice which calls to mind nothing so forcibly as that church in New York which, from its composite architecture, was dubbed by the irreverent the Church of the Holy Zebra. The *Chronicle* has gone clear over to the other side, a fact which was made very conspicuous when it admitted to its columns the article upon the election of a successor to Senator Hearst, which was written by Aaron A. Sargent, a Republican trickster who hopes to fill Senator Hearst's shoes.

Our esteemed contemporary, the *Express*, when the proclamation first reached our people, indulged in the following doubtless honest expression of opinion:

Undoubtedly, if the present Legislature is constituted on this subject as it is believed to be, and a comprehensive code of laws relative to water and water right shall be adopted, it is better that action should be taken at once than that the matter should be postponed and compelled to take its chances in a new Legislature. The cost to the State of an extra session is a trifle compared to the amounts involved and threatened by the decision of the Supreme Court. The Governor proposes an entire reorganization of the Supreme Court, which can only be accomplished by the enactment of a constitutional amendment by the people of the State. In their present temper such an amendment would readily be carried. It need not be anticipated, however, that this desire will be attained without a vigorous fight. The riparianists, although having but a minority in the regular session of the Legislature, showed their ability to complicate matters by preventing all legislation. The friends of the Justice of the Supreme Court, calling the Legislature together will be generally commended.

It is very hard to mistake the ring of the foregoing. And yet now that journal is petting the riparianists, and trying to derive a miserable advantage to its party from a movement whose benefit to the State it cordially recognized.

Even our rampaging and thumbratic contemporary, the *Times*, has tied its legs up on this extra session business. Its first cuttings were doubtless the most honest which we shall hear from that journalistic descendant of the immortal Whangdoodle. It said:

Governor Stoneman is sharp and decisive in calling an extra session of the Legislature to meet on the 20th of this month. All of the people of the State had not yet made up their minds that an extra session was contemplated.

There is a clear majority in favor of the irrigation interests and satisfaction in the bill passed. The next Legislature will be a United States Senator to elect, and the whole field open for legislation that an extra session was contemplated.

## Crawford Divorced From his Wife.

ALL ON ACCOUNT OF DILKE.

A Bootblack Jumps from Brooklyn Bridge and is Uninjured. Grain Fire at Fresno.

(Special to the Herald by the Associated Press.)

London, July 23.—The case of Crawford against Crawford and Dilke was given to the jury this afternoon. They returned a verdict finding Mrs. Crawford guilty of adultery with Sir Charles Dilke and granting Mr. Crawford a divorce.

The jury was about twenty minutes only. The decision arrived at by the jury is that Mr. Crawford is entitled to a divorce from his wife on the ground of adultery with Dilke, as decided nisi by Justice Sir Charles Butt on February 12th last, the present case being simply a rehearing at the intervention of the Queen's Proctor for the purpose of ascertaining whether the decree should not be set aside on the ground of collusion between Mr. and Mrs. Crawford or on new evidence invalidating the wife's confession. The jury finds in favor of Crawford, confirms the previous decree and makes it absolute at the expiration of six months. This month will expire August 21st, the Queen's Proctor having been issued February 12th. The Queen's Proctor has been condemned to pay the costs of the present proceedings.

Santa Barbara, Cal., July 23.—The case of E. W. Crooks, charged with forgery in connection with the purchase of the Ortega ranch for sixty-five thousand dollars, was dismissed today on the ground of insufficient evidence. Crooks claimed to be acting as agent of the West Virginia Consolidated Oil Company at the time the alleged forgery was committed, and paid for the property with drafts purported to have been accepted by the Oil Company and which when presented for payment were declared forgeries. It is rumored that the affair has been compromised.

San Francisco, July 23.—A letter has been received from Senator Logan by the Republican Alliance in response to the invitation sent him to address the Republicans of San Francisco on his arrival here. I had not thought of making political speeches and would rather not do so, but when I arrive in your city it will give me great pleasure to confer with your committee."

**FINANCE AND TRADE.**

**Government Bonds and Railway Shares.**

New York, July 23.—Government bonds were dull and a shade weaker. State bonds quiet.

There was very little news from the street today of a character to affect values. A bright spot in today's market was Northern Pacific and Oregon Transcontinental. The general belief was that positive action has been taken upon the report of past sales, and a favorable issue to announce it is awaited. Also that more harmonious relations between the two companies named are soon to be brought about. The market was weak at opening, first prices showing declines of 1/4 to 1/2 per cent, the latter on Delaware & Hudson. The only exception were Louisville & Nashville, which was up 1/2 per cent, and Omaha, 1/2 per cent. Further fractional declines were made in early dealings, though a partial rally was established before noon, after which time the market continued dull and listless without apparent movement in prices until the close, which was dull and steady.

**"As Good as New"**

Are the words used by a lady who was at one time given up by the most eminent physicians and left to die. Reduced to a mere skeleton, pale and haggard, not able to leave her bed from the effects of disease peculiar to suffering females, such as displacement, leucorrhoea, inflammation, etc. She began taking Dr. Pierce's "Favorite Prescription," and also used local treatment recommended by him, and is now, she says, "as good as new." Prices reduced to \$1. By druggists.

**"It Knecks the Spine"**

And everything in the nature of eruptions, blotches, pimples, scrofulous humors and incipient consumption, which is nothing more or less than scrofula of the lungs, completely out of the system. It stimulates and invigorates the liver, tones up the stomach, regulates the bowels, purifies the blood and builds up the weak places of the body. It is a purely vegetable compound and will do more than is claimed for it. We refer to Dr. Pierce's "Golden Medical Discovery."

**A Pretty Woman's Secret.**

Fear of discovery, when she resorts to false hair and dyes, is a source of constant anxiety and left to die. Reduced to a mere skeleton, pale and haggard, not able to leave her bed from the effects of disease peculiar to suffering females, such as displacement, leucorrhoea, inflammation, etc. She began taking Dr. Pierce's "Favorite Prescription," and also used local treatment recommended by him, and is now, she says, "as good as new." Prices reduced to \$1. By druggists.

GEORGE MYER, Flatonia, Texas, was at 23 years of age, as his ancestors had been for several generations. One day he was shaving, he noticed a growth of hair on his head, which he at first regarded as a joke, but which soon became thick, long, and vigorous.

**A Tolerant Luxury**

Ayer's Hair Vigor has no equal. It is colorless, cleanly, delicate, perfumed, and has the effect of making the hair soft, pliant, and glossy. It is sold by all druggists.
